SEASON FOUR: 2026

McLAREN TROPHY EUROPE

There is an age-old question in motorsport: is it the car or the driver that makes the difference?

What if you put all the drivers into identical cars? Completely equal machinery so that when the lights go out, it's all up to the driver to make the difference?

McLaren Trophy Europe is McLaren's ultimate single-make championship, where drivers race identical cars, putting the focus on pure driving skill.

And the car they do battle with? The Artura Trophy Evo boasts 585PS, aggressive aerodynamics and Push-to-Pass technology making it capable of lapping within just seconds of a GT3 race car.

McLaren Trophy Europe is a 10-race championship, across five weekends, and all supporting the Fanatec GT World Challenge, at some of world's most iconic racetracks, including Monza, Spa-Francorchamps, Barcelona and Portimao.

Drivers enjoy just under five hours of track time on each weekend, which culminate in two 50-minute action-packed races.

Drivers can compete in three distinct classes: Pro, Pro-AM and AM to ensure they're always going wheel-to-wheel with drivers of similar skill and experience. The McLaren Trophy Academy allows our young Silver drivers to benefit from McLaren Motorsport's expertise and makes McLaren Trophy the perfect proving ground for any young, aspiring Pro driver.

All ten races are streamed to tens of thousands of fans, and state-of-the-art facilities – inspired by the McLaren Formula One team - offer the chance to experience what it means to be a McLaren racing driver.
